6	Any suggestions /Comments			
	Academic	Hostel	Others	
	1. Please try to make the library facility utilised. 2. How to stop the absence from the classes? 3. The innovative ideas like dental loops and TAB proves to be a boon to students where they can get access to all the information immediately instead of carrying loads of books. My daughter found dental loops helping her to a great extent to spot the exact area of the part. Their posture also gets corrected because of it. Thanks a lot for all the new things introduced.		1. Organise parent-teacher meet often to know child's performance.  2. Provide car driving learning facility for boys also.
