## Vision & Mission Document

### **Vision “*ORAL HEALTH FOR RURAL*”**

**Vision:** To establish an Institute of Dental Education and Research of global standards and to serve the people in the region with dental healthcare at an affordable cost with special focus on the rural sects of the local population. The college ensures that every strategic intervention and operational roadmap is strictly aligned to the defined Vision of the institution.

In Academic space, the college has introduced patient-centric care as a driving principle for initiating continuous training programs/continuing dental education (CDEs) to nurture both students and the faculties. Patient Counselling Process and Patient Feedback Mechanism is designed, monitored and periodically reviewed by each Department and drive our course corrections.

The College Hospital administration ensures that hospital premises are under strict monitoring of clinical and infection control protocols. Outcome-oriented research activities encourage scholars to address issues that are of societal relevance. Strong mentors advise the budding learners and innovators to take up problems that enable the local residents and other stakeholders towards increasing accessibility of the oral health care. Outcomes of all academic, research, innovation and outreach segments are directed towards addressing and solving the burning issues in the broader ecosystem. Thus, our overall services are designed principally towards achieving our Vision of ‘Oral Healthcare for the Rural’.

We uplift our facility, faculty, students and provide an opportunity for other stakeholders (peer institutions, Alumni, Innovators etc.) to be a part of the Vision through strategic Collaborations.
